# BUY REAL ESTATE NOW

For the reason it is cheaper than it should be, and you will never again be able to buy at such a low price.

## \$1,150

Let dealer bring on a perfect home, back to a perfect alley, street grade and corner view. In fact, view of Lake Washington and a great view of the Cascade Mountains. Charming, clean, entrance, 2 per cent interest.

## \$4,950

Corner, 17th and 18th, in the center of the city, within a few feet of the University, in the University Addition. One corner lot, 100 feet by 100 feet. If you are looking for a home, this is the one. The future perhaps you would desire to sell to some friend or that one of your family would like to live in. In the same position, we believe it will be impossible to find such a desirable piece of ground for so little money within the city limits.

## Six-Room Modern House

Commanding a view of Lake Washington, located in University Addition. Will be completed and ready for occupancy by the end of the month. Price \$4,950, cash payment down, balance by carrying a mortgage, and monthly payments. House open for inspection, and agents on the ground today.

## \$1,950

Modern, built on the top of a ridge overlooking a view of both the Olympics and Cascade Mountains, Lake Union, Lake Washington and about 100 feet of the surrounding country. It is a 100 foot lot, 100 feet by 100 feet.

## \$1,250

Built on top of the hill, with unobstructed view of a large portion of Seattle's business center.

All of the above are located in the University Addition. For more information, call on the agents.

We are now grading the streets and putting in cement walks from street to porches.

We have also petitioned the city to put in street lights and to pave the streets.

Don't you think you had better come out today and look over the land before it is too late? In Seattle, it is a matter of days before the city is too late.

Our agents will be on the ground all day today.

Take Yesler, James, Madison or East Union car to Twenty-third Avenue and transfer north to Boyer Avenue. Agents on the ground Saturday and Sunday.

Remember, we are selling this beautiful residence property at about 50 cents of the dollar.

# MONTLAKE PARK

## Greatest Bargains Ever Offered in High-Class Residence Property

3,000 Lots for \$1,800—One-Third Cash. Take Lake Washington Boulevard Direct to Property or Transfer From Madison, East Union, James, Yesler or Jackson to Twenty-Third Avenue and Go North to End of Line

Although there are a number of general improvements to go in, such as building concrete curbs, with pleasure house, 200 feet east and west of East and West Park Drive, and improving these street-front parking strips (by filling, painting, strewing, building walks, etc., this to be done by the Park Board), the parking of the cars between the railroad tracks, thus hiding the rails in the worst, the building of entrance roads to the park on the 125-foot boulevard at the south end, similar to some in Los Angeles (the building of street

Out of all this is included in price, except water, sewer and asphalt, which are on two-year installment making payments very easy.

Building restrictions lasting 20 years guarantee a set of homes and occupants in harmony with the surroundings.

### THE HOME FEATURE

The most exclusively located property is the city, being ENTIRELY SURROUNDED BY PARKS. TWO

### THE INVESTMENT FEATURE

A table compiled by Mr. B. C. Realizer, President of the Seattle Real Estate Association, appears on this page, and shows that Seattle residence property adjoining the University is the most valuable in the city, and is the most valuable in the city.

There are only 25 lots improved and being all—equal to 24,750-foot lots (which amount we advise all pur-

### University Values at a Glance

24	1/4	Improved	\$1,800
25	1/4	Improved	\$1,800

Every conceivable improvement that can be of service to residence owners is already in.

These include:

- Water mains and laterals to each lot.
- Water mains and laterals to each lot.
- Gas mains and laterals to each lot.
- Underground survey for street lights.
- Underground survey for house lights.
- Underground survey for telephones.
- Cement sidewalks and curbs.
- Asphalt paving.

LAKE FRONTS (on east and west). IMMEDIATELY ADJOINING UNIVERSITY CAMPUS (on the north)—now the largest and most beautiful park in the Northwest. Four hundred feet between this property and the next closest residence addition on the north.

There is not one property in the city so advantageously placed or surrounded by such refined and elevating surroundings as this property. Both the Cascade and Olympic ranges of mountains are within the range of vision, and every lot has an equal and forever unobstructed view of one of the lakes. Hence the name, "MONTLAKE."

setting and advantage of immediate access to University buildings (in summer) south through the campus park, with its library of 50,000 volumes and 300 periodicals open to the public. Can you imagine any place or set of circumstances so conducive to the healthful, rising growth and development of the family?

Look as you will, you will only find them all combined in this happy spot.

MONTLAKE PARK.

Office on property, also 1214 Alaska Bldg.

chance to take, instead of 50 feet), and as soon as the last mortgage is taken you can cost at 50 per cent, or more immediate advance. First, because you can't buy today lots in this district, or even farther removed from the University, for less than \$50 to \$60 per front foot; and, second, because when this property is sold it can never be duplicated, because the property doesn't exist in this city out of which such residence sites can be made, with such environments, such intimate
